

## Therapist Open Day

*Massage therapists at work*

EAST Devon based Massage Therapist Emma Gilmore and her team at the School of Bodywork have an open day at Exeter Natural Health Centre on Saturday 16th June.

It will be a great opportunity to visit the centre, meet the tutors and see them in action giving demonstrations of a variety of massage and bodywork techniques.

Free taster sessions, posture checks, home-care advice and refreshments will be available along with reductions on course fees, equipment and accessories.

The event will also give past and present students the chance to chat with the tutors, re-cap, catch up, network and gain valuable continuing professional development points. In the afternoon there will be demonstrations and the workshop 'Build your practice, Maximise Impact', a fast-paced and fact-filled session, focusing on the most effective aspects of marketing to help therapists achieve success and boost their client base. The workshop will be presented by Therapist Marketing Solutions.
